ROEL VAN HEESCH

R.B van Heesch (NL, 1991) creates films, poetry and photographs.

“Born in 1991, R.B. van Heesch is a Dutch filmmaker and artist. His video works make you descend into dreamscapes, the personal narratives, peels away at layers of your soul, till we unite as one homogenous state of human being stood in front of the screen. The fragments of images and text illustrates a form of cinema beyond a formula we are familiar with, in which we weave together disparate stories of varying beings. So we realize this world is paved with many beings with their own voice, dreams, stories, ways of seeing, and being and ultimate journey's in which we too reflect on our own.” Text by Molly Haviland.

- 2016 Who Am I? What's My Name? SID YOUNG ART INITIATIVE Glasgow, Verenigd Koninkrijk 'Who am I what's my name?' is the debut exhibition of the Sid Young artist initiative, featuring video works of Molly Haviland, Roel van Heesch, Katerina Sidorova and Debbie Young. Each dig to the very core of what is it to be human ; investigating language and narrative, for it is a passtime for solely the human species. The works presented deal with the matters of love but as an illness; choice but as a rollercoaster ride; skill as genetic memory and consciousness as the sign of insanity. www.sid-young.space

Lighthouse is hosting our very own BYOB: Bring Your Own Beamer (Projector) with the theme Architecture! BYOB was created by the artist Rafaël Rozendaal in 2010 as a DIY open source, non-commercial exhibition idea. Since then over 350 exhibitions all of the world have taken the idea and created their own exciting events. This will be the third time it has been held in Glasgow. The Lighthouse has kicked off 2018 by opening up Gallery 1, our largest space, for 2 weeks (19th January – 2nd February 2018). We invited designers, architects, artists, and filmmakers to submit films and bring along their equipment to create projections and works responding to architecture in all forms.
