

JESUS CANUTO IGLESIAS

Making Nothing New in New Ways

As a non trained musician I compose not to show a factoid about some physical or interactive element of an artwork but instead I use the conceptual meaning of musical topics in order to transmit the ideas that I deem reasonable for a certain message to transmit. Using musical or sound manners is just an element of such transmission of concepts as are any of the other elements of my installations. I link visual, sound and other sensorial elements to concepts where the existence of such interwinding generates a layered meaningful work. I am a firm believer in the fact that decision making in an artwork is detrimental to its meaning value. Normally, my practice is centered around physical elements mixed up with technical and conceptual elements. The acquisition and display of certain skills is a main element in my practice, where the role of the methodology not only serves esthetic purposes but also relates to the meaning of the concept (or concepts) to be transmitted.
